Conductors of all trains, and enginemen of extra engines, must get clearance orders before using the track between San Fernando Street and Los Angeles. Yard engines can work within these limits at all times, without orders, but must protect themselves in both directions.

Trains 39 and 40 will not stop at Commercial Street.

STANDARD CLOCKS located at ARCADE DEPOT, LOS ANGELES; SAN FERNANDO STREET, LOS ANGELES; COLTON, BEAUMONT, INDIO and YUMA.

In pulling out of stations, brakemen must watch wheels closely to see that brakes are fully released, and will immediately signal engineers to stop when wheels are found sliding. Engineers must keep a sharp lookout for such signals, as per Rule 278. Each brakeman will be held responsible for any wheels slid flat under the part of the train in his charge. Conductors in reporting flat wheels will give name of the brakeman in charge.

See Rule 84.—All west-bound trains have the absolute right of track over all trains of the same class running in the opposite direction.
